GitHub: <https://github.com/nusratch>

Computer Science graduate with hands-on experience in JavaScript and full-stack application development through academic and personal projects. Strong logical thinking, quick learning, and a collaborative team mindset. Seeking to grow as a Software Engineer by contributing to real-world applications.

TECHNICAL SKILLS

Programming:

JavaScript (intermediate)

Frontend Development:

HTML, CSS, Tailwind CSS, DaisyUI, HeroUI, DOM Manipulation, React

Backend & Database:

Node.js, Express.js, MongoDB, REST APIs

Tools & Technologies:

Git, GitHub, Expo Go

Core Strengths:

Problem-solving, Communication, Teamwork, Fast learner and adaptable

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science & Engineering

University of Science and Technology Chittagong (USTC)

Result: Final examination completed (Result pending)

Higher Secondary Certificate (HSC)

Science Group — Chittagong Board

Year: 2020

ACADEMIC PROJECTS

[Ebook Platform](#)

- Developed a full-stack ebook platform for readers, writers, and administrators.
- Implemented authentication, role-based access, ebook management, and reading history.
- Integrated Stripe payments and writer verification for secure ebook purchases.
- Built dashboards for managing ebooks, users, sales, and transactions.

Tools: Next.js, React, JavaScript, Tailwind CSS, Node.js, Express.js, MongoDB, Stripe, JWT, Git, GitHub

Patient Feedback System for Maternal Healthcare (ML-based DSS)

- Developed a machine learning–based feedback analysis system to evaluate maternal healthcare service quality.
- Developed full-stack web application using HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB.
- Implemented REST APIs and performed dataset preprocessing with sentiment classification using Python.
- Tested the mobile version using Expo Go and improved feedback categorization through data cleaning.

Tools: Python, JavaScript, C, Node.js, MongoDB, Machine Learning, HTML, CSS

[Online Learning Platform](#)

- Developed an online learning platform for browsing and exploring courses.
- Implemented course listings, details, authentication, and user profiles.
- Added popular courses, new releases, learning tips, and instructor sections.
- Built a responsive interface using Next.js and Tailwind CSS.

Tools: Next.js, React, JavaScript, Tailwind CSS, DaisyUI, Git, GitHub
